Location and Title-TBA

The Annual Archives Month Conference is a LILRC Documentary Heritage Program special event that offers a forum for historical society members to meet and discuss their mutual interests and concerns. This is a teaching conference which provides information on the importance of documentation by historical societies and organizations that maintain historical materials, artifacts, and records. It is held at a facility of historical significance on Long Island, and usually includes a tour of the building and grounds.

**October is Archives Month.** It is not too early to begin planning an event in celebration of Archives Month. Forms will be sent out in August for historical organizations to complete giving information about their planned event. The completed form should be returned to the Regional Archivist who will create a calendar of events that will be housed on the LILRC website as well as the New York State Archives Calendar of Events website.

### **Transcription of Oral Histories Project**

LILRC wishes to thank the interns from the Long Island Business Institute in Commack, for their time in transcribing oral histories for Patchogue-Medford Public Library, Brentwood Public Library, Henry Waldinger Memorial Library, and Hofstra University.

Twelve students have volunteered for the LILRC internship project, from the new term which begins soon. Priority will be given to those on the waiting list who applied for the first project but because of the limited number of interns, did not receive the service.
